Creatively introduce your baby to yoga and **provide** yourself with a comfortable space to **explore** your changing body as you **rebuild** strength, stability, and balance postnatally.

Yoga postures for mom focus on restabilizing hips & low back, strengthening core, and relieving upper back, neck and shoulder tension. Adaptations are available for vaginal & C-Section birthing.

Babies are introduced to yoga via sound, movement, massage and bonding with mom.

This informal class provides moms an opportunity to strengthen your body while feeling supported and encouraged as a new mom.
